The average U.S. home has a half mile of gaps and cracks where air and moisture can enter. Installing energy-efficient windows and doors can greatly reduce this infiltration, but another area is often overlooked - around the window and door frames. Uninsulated or underinsulated framework can contribute to the home’s total energy loss and overall comfort.

Close the Gap
Seal out energy loss and help improve comfort by closing the gap between the framework and rough openings with GREAT STUFF PRO™ Window & Door Insulating Foam Sealant.

The low pressure-build formulation of GREAT STUFF PRO™ Window & Door Insulating Foam Sealant forms a durable, airtight and water-resistant seal between a window or door frame and its rough opening.

GREAT STUFF PRO™ Window & Door Insulating Foam Sealant is available in a 20 oz gun-applied version. The gun formulation can be used with the GREAT STUFF PRO™ Series Foam Dispensing Guns and is designed specifically for the PRO contractor.

With GREAT STUFF PRO™ Window & Door Insulating Foam Sealant, you can achieve better window or door installation. GREAT STUFF PRO™ Window & Door Insulating Foam Sealant helps to prevent drafts, repels water and more, resulting in higher quality installation, improved home comfort and greater customer satisfaction.

Features and Benefits At a Glance

- Meets ASTM E2112 standards
- Low pressure-build formulation at 0.13 psi; 0.90 kPa (average) (gun-applied foam) per AAMA 812-04
- When properly installed is proven not to bow or distort frame
- Expands to take the shape of gaps, creating a long-lasting, airtight and water-resistant seal
- Helps to maximize energy efficiency
- Bonds to vinyl, metal, wood and composite surfaces
- Repels and deflects water
- Tack-free in 3-10 minutes, Trims in 60 minutes\(^2\)
- Fully cured in 8 hours
- UL classified
- One 20 oz. can (gun-applied) foams 16-18 average sized residential windows\(^3\)

Dow Polyurethane Foam Insulation and Sealants

CAUTION: When cured, these products are combustible and will burn if exposed to open flame or sparks from high-energy sources. Do not expose to temperatures above 240°F (116°C). For more information, consult (Material) Safety Data Sheet (M(SDS)), call Dow at 1-866-583-BLUE (2583) or contact your local building inspector. In an emergency, call 1-989-636-4400 in the U.S or 1-519-339-3711 in Canada. When air sealing buildings, ensure that combustion appliances, such as furnaces, water heaters, wood burning stoves, gas stoves and gas dryers are properly vented to the outside. See website: http://www.epa.gov/iaq/homes/hip-ventilation.html. In Canada visit http://archive.nrc-cnrc.gc.ca/eng/lsp/rcb/hs/building-ventilation.html

GREAT STUFF PRO™ sealant and adhesive products contain isocyanate and a flammable blowing agent. Read all instructions and (Material) Safety Data Sheet (M(SDS)), carefully before use. Eliminate all sources of ignition before use. Cover all skin. Wear long sleeves, gloves, and safety glasses or goggles. Not for use in aviation, or food/beverage contact, or as structural support in marine applications. Provide adequate ventilation or wear proper respiratory protection. Contents under pressure. Not to be used for filling closed cavities or voids such as behind walls and under tub surrounds; this improper use of the product could result in the accumulation of flammable vapors and/or uncured material. Failure to follow the warnings and instructions provided with the product, and/or all applicable rules and regulations, can result in injury or death.

GREAT STUFF PRO™ Gun Cleaner is flammable and contains acetone and propane. Read all instructions and (Material) Safety Data Sheet (M(SDS)) carefully before use. Eliminate all sources of ignition before use. Cover all skin. Wear gloves, and goggles or safety glasses. Provide adequate ventilation or wear proper respiratory protection. Contents under pressure.

Building and/or construction practices unrelated to building materials could greatly affect moisture and the potential for mold formation. No material supplier including Dow can give assurance that mold will not develop in any specific system.
